

# C-401

## 40 Degree Leg Press

C-401 ↗

### Description:

Sled travels on concave high-density nylon wheels and stainless steel rails (rather than traditional linear bearings and guide rods) for smoother operation. Racking mechanism disengages automatically when user starts exercise. Centralized weight loading shafts reduce required operating space substantially. Standard weight storage horns eliminate need for separate weight trees. Loads up to 1530 lb

### Specifications :

- Width : 58"(147 cm)
- Height : 59"(150 cm)
- Length : 104" (264 cm)
- Weight : 617 lbs (280 kg)
- Starting weight : 125 lb (57 kg)
