TRUE® Performance 3000 Treadmill

Smooth Quality. Steadfast Durability.

Meet the TRUE Performance 3000 Treadmill

The **TRUE Performance 3000 Treadmill** is a treadmill suited for users of all fitness levels. The Performance 300 combines smooth, quiet quality with steadfast durability. The data feedback and challenging programs motivate any user to work towards their health and fitness solutions.

Your Fitness Experience

Constructed with commercial-grade materials and premium components, so each piece of equipment feels and functions like a commercial machine.

Your Body Will Thank You

TRUE's FITX System offers a bio-mechanically correct running surface. Neoprene shock absorbers in the front of the deck cushion each foot strike, while the back of the deck provides a firmer sensation allowing for a stronger push off with every step.

Maximize Your Workouts

TRUE HRC allows you to enter your target heartrate for maximum results. Our one touch TRUE HRC Heart Rate Cruise Control™ allows you to use HR at anytime in your workout and will adjust speed and incline automatically once you hit your target HR.

8.5" LCD

- Quick keys, connectivity, and challenging programs
- Up to four (4) user profiles

Warranties outside the U.S. and Canada may vary - Please contact your dealer for details. Specifications subject to change without notice.

**The stated "Horsepower"/ "continuous Horsepower" (HP/CHP) is a standard reference in the treadmill market, primarily used to aid consumers in making comparisons. This CHP rating is ascertained via lab-based dynamometer tests, which evaluate the mechanical prowess of the motor. its important to note, however, that the CHP rating is not reflective of the treadmill's working horsepower in a regular home setting. In everyday domestic use, the motor's horsepower doesn't correspond to the CHP value displayed.*
